The News.

We have this morning, by telegraph, a synopsis of Mr. BLAIR's letter, setting forth the views expressed by Col. BENTON, upon National politics, shortly before his death. Col. BENTON had renounced BUCHANAN and all his works.

Additional vessels have been despatched to the Gulf, to strengthen our squadron in that quarter, in view of the unauthorized interference of British cruisers with American commerce.

The Tariff Investigating Committee made their report yesterday. It exonerates Congress from all imputations.

We learn, from the Plains, of further Indian fights and depredations.

The New York Market, yesterday, was active at an advance. The Bank statement was favorable. In our own market, receipts were smaller and prices unchanged. Business was somewhat depressed by the wet weather.

The annual election for Directors of the La Crosse and Milwaukee R. R. comes off in our city to-day. Polls open from 10 A. M. till 4 P. M. There is a large attendance of stockholders and others.

LaCrosse R. R. Election.

The annual election for Directors of the La Crosse and Milwaukee R. R. Company, comes off at the office of the Company, in this city, to-day. The polls will be opened from 10 A.M. till 4 P. M. The election excites great interest, not only in our own State, but among the numerous stock and bond-holders at the East; and there will, no doubt, be a large attendance. The bulk of the stock is owned at the East, and the result will depend, of course, entirely upon the views of those who have the controlling interest in the road. But while a majority of the Direction will be located where the greater part of the stock is held, it is the desire of the Eastern Stockholders to give a fair representation to the home interest; their only wish being to select men unexceptionable in themselves and satisfactory to the people of Wisconsin.

We understand that it is the intention of the new Board, immediately after the election, to pass over the entire line of the road, as far as completed, and to extend their visit to La Crosse, so as to see and judge for themselves as to the progress of the work, the country through which it passes, and the value of the enterprise as an investment. We cannot doubt that such an examination will confirm all the estimates they have made of its probable productiveness. We are glad to be able to add that the money is all raised and ready, to pay for building the road through to the Mississippi; that the energetic contractor, Mr. CHAMBERLAIN, has now some 3,000 men at work, and that he is driving matters right along. There is no doubt that the road will be finished and open to La Crosse, by, or before the 1st of November. It is destined to be the great thoroughfare of the North-West.

The Editorial Convention.

The second annual Convention of the Editors of Wisconsin is to be held at Madison on the 16th of next month. The gathering promises to be a large one, and the proceedings cannot fail to be interesting. The address is to be delivered by Col. CHAS. D. ROBINSON, of the Green Bay *Advocate*, one of the pioneers of the craft in Wisconsin.

We are authorized to state that the Milwaukee and Mississippi R. R. Company will give one pass to every newspaper in the State on this occasion, and no doubt other Companies will be equally liberal.

Rivers and Harbors.

The following was the *test* vote in the Senate, by which the motion of Gov. SEWARD, to take up the bill making an appropriation for the improvement of Chicago Harbor, was defeated;

YEAS—Messrs. Broderick, Brown, Cameron, Chandler, Clark, Crittenden, Doolittle, Durkee, Fessenden, Foot, Foster, Hale, Hamlin, Harlan, King, Pearce, Seward, Simmons, Stuart, Sumner, Trumbull, Wade, and Wilson—22

NAYS—Messrs. Allen, Bayard, Bell, Benjamin, Bigler, Bright, Brown, Clay, Clingman, Davis, Fitzpatrick, Green, Gwin, Hammond, Henderson, Houston, Hunter, Iverson, Johnson of Ark., Johnson of Tenn., Jones, Kennedy, Mallory, Mason, Polk, Pugh, Rice, Sebastian, Shields, Slidell, Thomson of N. J., Toombs, Wright, and Yulee—34.

Yeas, 18 Republicans, 2 Democrats and 2 Americans. Nays, 32 Democrats, 2 Americans. Let the WEST remember its friends, and not forget its enemies.

SALES OF R. R. BONDS.—The N. Y. *Express* of Friday last says:

In Rail Road bonds the largest sales were of La Crosse Land Grant, exceeding in amount those of all the other descriptions together.—Prices, however, were not so high, closing at 34, against 35 highest and 34¼ lowest price of yesterday.

FRESHET IN BELOIT.—Our neighboring town of Beloit was visited Sunday evening with a very violent thunder storm, and a fall of rain unparalleled in years. We hear that Broad street was entirely inundated, and portions of the Galena and Chicago Union railroad track was washed away. Other damage was done. This storm passed Janesville with little rain, but seems to have spent its fury in and about Beloit.

We also learn that a bridge between Sharon and Lawrence, on the Chicago, St. Paul and Fond du Lac railroad has been carried away.—*Janesville Gazette.*

AQUATIC.—We understand that another regatta is on the tapis between the Shakspeare rowing club of Toronto, and the Metropolitan club of this city, the Shakspeare's being the challengers. The contest will be for the championship of the Lakes, and will come off at Chicago. The time for the race and the details as to boats, etc., have not been decided upon, but it is probable the race will come off next month and four oared boats will be decided upon. The regatta crew of the Metropolitan is one of the best in the country, and our Canadian neighbors will find it troublesome business to beat them.—*Chicago Tribune.*

Interesting from Venezuela.

NEW YORK, May 25.

A private letter from Carracas states that diplomatic intercourse between the British Minister and the Venezuela Provisional Government had ceased on the notification of the former. Another report was that the Minister had been dismissed for his attempt to thwart the intentions of the Government towards the Monegas family.

The French frigate and sloop-of-war, and an English war steamer were lying at Laguayra.—It was reported by passengers from the latter place, that the French Admiral had threatened to fire on the town unless Monegas was released within 48 hours.

POLICE COURT YESTERDAY.—Yesterday morning the Police Court presented an appearance that reminded us of old times. It was crowded to a jam with 3d Warders mostly, offenders and lookers-on. The familiar face of Darby Carney, was again to be seen behind the bar. There were two charges against Darby, one of which accused him of being disorderly and breaking windows, and the other with getting into a muss on Huron street. Upon the latter he was acquitted, as the testimony showed that Darby acted like a peaceable citizen, and he would not probably have got into the difficulty had he kept out of bad company. Upon the other charge he plead not guilty, and asked a postponement of the case until Thursday morning, which was granted.

Peter Lowe, was convicted of breaking a window in a Beer Hall on East Water Street, by hurling an old tin kettle through it, and fined $10 and costs. The defendant, with Darby Carney, and several others, appeared to have got into a dispute with the proprietor of the Saloon with regard to the price of some liquor which they had ordered, and some of them becoming boisterous and disorderly, the Saloon keeper turned them out, when Lowe picking up the first missile he could find smashed in the window of the Saloon. Lowe was also charged with disorderly conduct, in the 3d Ward, to which he plead guilty, and was fined $3 and costs.

Ecuimous Akley, and Leo Streichmahler, were found guilty of disorderly conduct, and fined $3 and costs each.

A woman named Wilhelmina Bant, was brought up on a charge of stealing a round of beef, from the butcher shop of Christian Ernst, in the 1st Ward. The woman plead guilty to the charge and in tears besought the Court not to send her to jail, away from her children.—Judge Walworth remarked that he was at a loss to know what disposition to make of the case.—He did not wish to impose the usual penalty, as the woman had no means of paying the fine, in default of which she would be sent to jail for six months, and he thought it would be hard to separate her from her family of young children for such a length of time. He therefore concluded to sentence her to the lightest punishment within the bounds of the law, which was five days imprisonment.

Frederick Hoffman, disorderly, was fined $3, and A. Coffinbery, convicted of the same offence, was fined $2 and costs.

August Shade, disorderly, not guilty.

The case of Frederick Thompson, charged with committing an assault and battery, was dismissed for want of prosecution.

O. Smith intoxicated was fined $1 and costs.

PUBLIC SCHOOL IN THE EIGHTH WARD.—Hitherto there has been but one Public School for the Fifth and Eighth Wards, and this one is not only very far from being central, but its accommodations are entirely insufficient for the numerous children of the two wards. To remedy, in part, this deficiency, the School Commissioners have rented a neat two-story frame building on Elizabeth street, near the residence of Ald. HAYDEN, and are now fitting it up for a Public School.—There are two rooms in the building suitable for school purposes. One of these, which will be used for a Grammar Department, will accommodate 40 children; and the other, which will be the Primary and Intermediate Department, and can accommodate about 60. Mr. J. FORD been appointed Principal; Miss S. TROWBRIDGE, Principal of the Intermediate Department, and Miss ELIZA P. HOBBS, Assistant. All these are experienced and competent Teachers.

This addition to the school facilities of the Fifth and Eighth Wards is far short of the public need. There are in the Eighth Ward alone, some 800 children of the proper age to attend school. It is to be hoped, therefore, that the Common Council will grant the petition of the Eighth Ward Commissioners for an enlargement of their school building. The expenditure of a few hundred dollars will secure the additional room required.

THE CASE OF POLICEMAN COLLINS.—A correspondent under the head of "Favoritism in the Police Court," in yesterday's paper, stated that Policeman COLLINS, while acting in his official station, was fined $10 for committing an assault upon an unoffending citizen, some months since, and that the fine was yet unpaid. We have inquired about the matter, and find that the facts of the case are not exactly as our correspondent states. Officer COLLINS while in the police force, was prosecuted on a charge of having outstripped the bounds of his duty in a certain case, and having been convicted, was fined $10 and costs. The offence was not, therefore, an assault and battery, which would have made it a State matter, but it was entirely a city case, and the Police Justice had no more to do with enforcing payment of the fine, than our friend THOS. O'FLAHERTY. The matter rested with the City Attorney, (Maj. FOOTE,) by whose authority Judge WALWORTH issued an execution against COLLINS for the amount, which is now in the hands of the officers, to be collected at the direction of the City Attorney. Why the payment of the fine was not immediately insisted upon, we are unable to say, but make this statement in justice to Judge WALWORTH. It has been suggested to us that when the city pays the policeman the arrearages due him, he will be able to pay the fine.

FOURTH OF JULY.—At the regular meeting of Company "A," Milwaukee Light Guard on, Monday evening last, a committee of three, consisting of Capt. JOHN C. STARKWEATHER, Commissary HARRY BINGHAM and Orderly Sergeant G. E. BINGHAM, were appointed, to confer with similar Committees from the Military, Fire and other Companies and Associations in our city, with the view of getting up a grand celebration for next Fourth of July.

PERSONAL.—Gov. RANDALL was in town yesterday and stopped at the Newhall House. Our State has never had an Executive whose course gave more entire satisfaction to his political friends, and less cause of complaint to his political opponents, than ALEXANDER W. RANDALL.

Rail Road Meeting.

A meeting of the stock-holders of the La Crosse & Milwaukee Rail Road was held at Rantz's Hall, in the Second Ward, yesterday afternoon. At about half past two o'clock the meeting was called to order, and WILLIAM DAWES, Esq., of Fox Lake, elected Chairman, and Dr. J. B. SELBY, of this city, chosen Secretary of the meeting. After making a few introductory remarks, Mr. DAWES stated that a large number of stock-holders, who were expected to be present, were on their way, and would arrive on the evening train. They would, no doubt, be pleased to take part in the meeting; it was also desirable that the President of the road, Mr. STANTON, should be present; and he would therefore suggest that the meeting adjourn until 7 o'clock in the evening.

On motion of BYRON KILBOURN, a committee of three, consisting of Mr. FERGUSON, of Fox Lake, Mr. S. P. RITKIN, of Waukesha, and Mr. N. B. CASWELL, of this city, were appointed to wait upon the President, Mr. STANTON, and invite him to be present in the evening.

On motion, the meeting then adjourned, as suggested by the Chair.

THE MEETING LAST NIGHT.

The inclement state of the weather was a great drawback on the meeting last night; notwithstanding, there was quite a large attendance, and most of the counties on the line were represented—some of them very largely. At about half-past eight o'clock, Mr. DAWES called the meeting to order, when the Secretary took down the names of the stockholders from the various counties.

A resolution was adopted, instructing the Chair to appoint a committee of three, from the counties of Milwaukee, Washington, Dodge and Columbia, and five from each of the Counties along the line west of the Wisconsin, to report four suitable candidates for Directors. Mr. DAWES thought the meeting was still destitute of the information necessary to progress with any degree of satisfaction. He was sorry that the President of the Road, and some of the Eastern Directors, were not present. The gentleman dilated at some length upon the necessity of securing a fair representation in the Board of Directors for the Western interest. He also explained the necessity of harmonious action on the part of the committee. The committee was appointed as provided by the resolution.

While the resolution was under consideration, BYRON KILBOURN, Esq., was called upon, and he addressed the meeting briefly upon the condition and prospects of the La Crosse Road, and expressed his concurrence with the spirit of the resolution. He believed that the Western stockholders were entitled to at least four members in the Board of Directors, and he hoped they would insist upon having that number. A number of others addressed the meeting, and all appeared unanimous in condemning the action of Eastern men, in endeavoring to monopolize the entire control of the Board of Directors.

After considerable further debate, the committee were instructed to retire, and report to the meeting the names of four eligible candidates for the offices of Directors.

The committee retired, and, after being out over an hour, reported the names of the following gentlemen, which were unanimously approved of by the meeting: WM. E. JACOBS, of Milwaukee; BENJAMIN FERGUSON, of Dodge Co.; ANDREW DUNN, of Columbia Co., and JOSEPH NUTALL, of Juneau Co.

Considerable interest was exhibited on the part of all present, in the proceedings of the meeting, of which we had intended to report more at length, but owing to the extremely late hour at which the meeting adjourned, we are unable to give a full report.

DESPERATE ASSAULT UPON AN OFFICER.—On Monday night about nine o'clock, a row took place in the 3rd Ward, in which Constable Portell, while in discharge of his duty, was assaulted and beaten in such a manner that he now lies in a dangerous condition. The Police give us the following account of the matter: It seems that the occupant or occupants of a house of ill-repute were about removing their quarters, and while thus engaged were attacked by a crowd of rowdies, and ruffians. The officer interfered, and endeavored to dissuade the crowd from interfering with those people, but as they paid no attention to him, he attempted to drive them from the house, when he was attacked by some of the ruffians, knocked down, and kicked, cut, and bruised in a terrible manner. During the melee, he received several blows on the head with some ugly weapon, which inflicted several frightful gashes, and two of his ribs were broken, besides being otherwise badly bruised.—One of them came at him with an uplifted axe, and, but for the interference of others, would probably have murdered him. Four of the ruffians have been arrested and are held to await the effects of the officer's injuries.

THE GAS EXPLOSION.—Yesterday we gave an account of the gas explosion in Young's building, on Monday evening, but were in doubt as to the cause of the explosion. Mr. HAYDEN, President of the Gas Company, in a card published last evening, states that "the carpenters, in laying the floor in Young's building, injured the pipe so as to create a leak (in a partition between two of the rooms) which some one must have ignited, otherwise there could have been no explosion. The fittings had been proved by two of our inspectors, at two different times, with the same guage we prove all work by, and found perfectly tight. The gas was turned into that part of the building on the 7th inst., and a thorough examination was made by the inspector, who found all right."

THE NEWHALL HOUSE.—Quite a number of Eastern gentlemen, interested in the La Crosse Rail Road, have arrived in our City within a day or two past, and are now stopping at the Newhall House. We heard several of them say, yesterday, that the Newhall House was the best hotel they had seen in the West, and superior to any house this side of New York. Such, we believe, is the judgement of all who have ever tarried there. We are glad to know that the business of the Newhall is steadily improving.

NEW YORK CENTRAL RAILROAD.—ALLEN BUTLER Esq., the well known and popular General Western Agent of the New York Central Rail Road, was in our city yesterday, at the Newhall House, on business connected with his road.—Mr. BUTLER leaves this morning, for Prairie du Chien, and thence goes to St. Louis, perfecting arrangements for the Summer Travel. The New York Central R. R., among its many other advantages, is fortunate in its Officers and Agents, and Mr. BUTLER is an excellent instance in point.

HOME AGAIN.—Mayor PRENTISS returned home yesterday, from New York, being called back by the La Crosse R. R. election, which occurs today; he being one of the Inspectors. Comptroller HATHAWAY remains in New York, where Mayor PRENTISS will join him again, next week; their business being not yet concluded, but progressing favorably.

DIGNITARIES IN TOWN.—Among the arrivals at the Newhall House, yesterday, were Governor RANDALL; Col. JONES, Secretary of State; Mr. HASTINGS, State Treasurer; Mr. LOVELL, Speaker of the Assembly, and Senator CLARK, of Manitowoc.

THE WEATHER YESTERDAY.—Wind North-East; atmosphere foggy; skies dripping; mud abundant; business dull; and people generally out-of-sorts.

NEW MAP OF THE CITY.—The compilers of the new City Directory request us to announce that, grateful for the liberal support their enterprise has received from the business community, they have determined to redouble their exertions, and make the book in every way worthy of patronage. To this end they have made an arrangement with Messrs. Lipman and Riddle, 216 East Water Street, to prepare an entirely new map of the City, lithographed in the best style of the art, to accompany the Directory.—The map will be given with each copy of the book without additional charge, *to subscribers only.* The price of the book will be $2,00, published only for subscribers. No copies of the work will be had for sale after the subscribers are supplied. Send in your orders, for Directory and advertisements, to office 134 East Water St. Room No. 8.

DE DEMOR & RAYMOND, have arrangements whereby they receive from the country, every day, the nicest and choicest fresh butter, vegetables, &c., at their Family Grocery and Provision Store, No. 16 Wisconsin street. They spare no pains to obtain the very best of everything in the way of eatables, that their customers require. Quick sales and small profits is their motto.—Don't take our word for it. Give them a call and satisfy yourselves.

WALL, THE CITY AUCTIONEER, will have two important sales this week, a large stock of Staple Dry Goods on Thursday morning at his Auction Room, and a large sale of Furniture on Michigan street, [formerly City Land Office] on Thursday morning. It is well worth your attention. Also read his new advertisement.

FOR BUFFALO.—The propeller *Globe*, Captain Pratt, will leave our port for Buffalo, this afternoon. For passage, &c., apply to GRIFFIN & BURNS, foot of East Water Street.

SUBSCRIBE, SUBSCRIBE, SUBSCRIBE.—All persons desirous of obtaining a Directory for the coming year, should not delay in sending in their names, as no more copies will be printed than the number subscribed for. Office 134 E. Water Street.

RENTS & LEASE.—J. S. FILLMORE has a good two story frame house to rent, on 6th street, Fourth Ward. Rent $200 per annum. Also 20x120 feet on Main street, near Michigan, to lease, for 10 years.

☞ S. G. CROUCH has Furniture Wagons, for moving household goods from the depots and dwellings to any part of the city. Those having jobs of this kind, will do well to employ him, if they want their furniture carefully handled.—Orders left at Crouch's Undertaking Rooms, Spring St., opposite the American, will receive prompt attention. my26d2t.

The market, yesterday, was less active, though previous prices were maintained. There was rather a languid feeling on the part of the buyers in the early part of the day, but the effort to bring down the views of holders having failed, they came up to the mark, and about the usual number of sales were made. The weather could not have been more unfavorable for the transaction of business, than it was the greater part of the day. A drenching rain fell nearly all the afternoon. The receipts were rather lighter, and the unfavorable state of the weather, and the consequent bad condition of the roads, must still further decrease them, it would appear. We quote:

WHEAT—Selling at previous prices, though rather slower. Sales of club, yesterday, at 65 and 64c, and No. 1 at 63, 62½ and 62 for choice and fair. No sales of winter wheat.

WASHINGTON, May 25.

SENATE—No business of special importance thus far, has been transacted. The Chicago Harbor bill was debated.

HOUSE—Mr. Grow, of Pa., asked, but did not obtain consent to offer a resolution, that when Congress adjourned on the 7th of June, it be until the 4th of November.

Business relating to the District of Columbia was then taken up.

Several bills were passed, including those for regulating the municipal elections in Washington.

For organizing a paid fire department in Washington and Georgetown, and appropriating $37,000 for the purchase of steam fire engines, and the fire and police telegraph.

The Ohio contested election case was then taken up.

Francis P. Blair's Letter—Benton vs. Buchanan.

NEW YORK, May 25.

The Tribune contains a letter of three columns from Francis P. Blair, in reply to Carey Jones' statement touching the dying opinions of Col. Benton. Mr. Blair, regarding his former account of his interview with Col. Benton, while the latter was on his death bed, maintains the truthfulness of his version of his language, then uttered by Mr. Benton, concerning Mr. Buchanan. He then proceeds to show from recorded evidence, in Col. Benton's own hand writing, that he was opposed to Mr. Buchanan and his administration, and was opposed to the settlement of the territorial question, relating to slavery, in the mode proposed by Mr. Buchanan, but, on the contrary, resolved on the agitation of the subject until the opinion of the Supreme Court in regard to opening all the Territories to the introduction of slaves was rendered abortive by the action of Congress people. That he was opposed to Mr. Buchanan, not merely on the score of his pending measures, but because he had recently given in his adhesion to principles adverse to the general cardinal doctrine in reference to the legislative and executive department on political decisions, because he believed him Anti-Democratic at heart.

In proof of these positions, Mr. Blair publishes a series of resolutions, together with a preamble and proviso, which Mr. Benton gave to Francis P. Blair jr., to submit to the republican members of Congress. The resolution refers to the Dred Scott decision of the Supreme Court, denouncing that decision as extra judicial, illegal and void, and also in derogation of the powers of Congress to legislate for the territories, and that consequently it had become the duty of Congress to vindicate its rights by asserting its full authority to legislate upon slavery in the territories, and to declare its total disregard of that decision.

The preamble was intended by Col. Benton, to be affixed to the act for the organization of Arizonia. It refers to the fact that by virtue of the laws of Mexico, that territory is now free from slavery, and provides that, notwithstanding the Dred Scott decision, it should remain so. Mr. Blair also refers to a paper given by Mr. Benton to Col. Fremont at their last interview, in which he sets forth his reason for abandoning Mr. Buchanan, and also for reversing his opinion with regard to Col. Fremont.

Items from the South-West.

ST. LOUIS, May 25.

Santa Fe papers of the 5th May, are received.

On the 17th of April a party of Mexicans from Mesilla, attacked a camp of Apache Indians, near Fort Thorn, and butchered indiscriminately, men, women and children.

Lieut Howard of Fort Thorn, captured the Mexicans, and had them prisoners at the Fort.

On the 9th of April, a tremendous storm of rain, hail and snow, occurred near Turkey Creek, flooding the prairie to the depth of one and two feet and swamping the animals of the train, and involving heavy losses to the Indians.

James M. Hunt, whose death was reported yesterday, was a native of Albany.

The Republican learns that Montgomery's band of robbers in Kansas, have in contemplation the robbery of the Indian Agent, who is about distributing annuities to the amount of $40,000 among the Sac and Fox Indians.

The robbers are now concentrating on the Osage, about six miles from the Sac and Fox agency.

Mr. Timothy has asked a military escort from Gen. Harney, to conduct him from Kansas City to the agency, and to protect all parties during the distribution of the money.

The officers of the steamer Polar Star, report that a strong force had surprised Montgomery's band near Fort Scott, and killed 11 of them, but this needs confirmation.

Washington Matters.

WASHINGTON, May 25.

The report of the Tariff Investigation Committee was adopted to-day, and will be submitted to the House on Wednesday or Thursday.

The report, after showing that John J. Walcott was sent to Washington, authorized to pledge any amount of money, and to use any means to insure a change in the tariff, proceeds to state in detail the various sums paid for this purpose, and the persons to whom such sums were paid. These sums amount to about $17,000. The balance of the $87,000 is not traced beyond Mr. Walcott's pocket. It appears from the testimony of Mr. Slade that an additional sum of $12,000 or $13,000 was received and disbursed by Lawrence, Stone & Co., but how was not ascertained. The Committee express the strongest censure on Mr. Walcott, and also Mr. Corbin, the ex-Clerk of the Committee on Claims, and seriously impeach their testimony.

When Com. Paulding's case is taken up, it is the intention of Mr. Slidell to oppose the resolution empowering the President to suspend the neutrality laws at discretion.

Proposals for Printing the Revised Statutes.

SEALED PROPOSALS are invited for furnishing, in accordance with "An Act relating to the publication of the "Revised Statutes," approved May 17th, 1858, ten thousand copies of the (one) volume of Revised Statutes, Compiled Laws, and other matter in said law directed to be published; the same to be delivered to the Superintendent of Public Property, at Madison, within four months of the time of making the contract. A competent person will be appointed to attend, personally, to the printing of said Statutes, read the proof, append the marginal notes, arrange the chapters, and prepare the Index. He will be empowered to supervise the work throughout, and reject any portion not done in accordance with the terms of the contract. All acts of a general nature, passed at the session of 1858, are required to be published in the volume, together with such other matter as is published with the present volume of Revised Statutes.

The volume is required to be a "large octavo, the text on a new small pica type, the notes in minion, and printed on a good quality of book paper, bound in good, substantial law-book style, to be equal in quality, and of material and workmanship to the Revised Statutes of Maine, published in 1857, which is adopted and placed in the Executive office as a standard.

The copyright of the said volume, as against individuals, is secured to the contractor, the retail price of the book to be not more than $4,00. The contractor to give bonds to the amount of $20,000, with two sureties who shall be residents of this State, and each justify to that amount, for the performance of the contract.

Preference will be given to a bid from this State, all other things being equal.

Proposals must be made for furnishing the work at a certain sum per volume of 1,000 pages, and a certain amount for each additional hundred pages.

Proposals will guarantee the time within which the books will be delivered, and the shortest time and the lowest price will be considered in declaring the award.

Proposals will be received until 8 P. M. of Tuesday, June 15th, 1858, at which time they will be opened, and the award made. They should be sealed and marked, "Proposals for printing the Revised Statutes," and enclosed in an envelope addressed to the "Executive Office, Madison, Wis."

It is not probable that the payment can be made for the work before the middle of February next.

The law authorizing the publication is published herewith.

Madison, May 21st, 1858.

ALEX. W. RANDALL, Governor.
SAM'L D. HASTINGS, State Treas'r.
GABRIEL BOUCK, Att'y General.

CHAPTER CXXXIV.

AN ACT relating to the publication of the Revised Statutes.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. The printing of the Revised Statutes shall be done under the general supervision of one of the commissioners to revise the laws, "or some competent person, to be selected by the Governor, who shall be denominated, Superintendent of the printing of the Revised Statutes," and he shall receive such compensation as the Governor may deem just and proper; Provided, that the per diem shall not be more than six dollars per day. The said Superintendent shall attend personally to the printing of said Statutes, shall read the proof, append the marginal notes, on all the pages, indicating the subject matter of each section respectively, as are required, arrange the chapters, and prepare a proper index for the same. He shall compare the work, as it progresses, with the specimen or standard volume hereinafter provided for, and shall have full power, with the consent of the Governor, to stop the work at any time, if in his opinion it is not being done in accordance with the contract, and not allow it to proceed until he is satisfied that the execution of the work is, in every respect, equal to the standard, and is such as its importance demands. All acts of a general nature, passed at the present session of the Legislature shall be included in said volume of the Revised Statutes, and it shall be the duty of the said Superintendent, and he is hereby authorized to compile and properly arrange said acts for publication therein. And the Secretary of State, on the completion of the publication of the Revised Statutes, is hereby authorized to draw a warrant on the State Treasury for the amount of compensation of the said Superintendent, and there is hereby appropriated out of the State Treasury, a sum sufficient to meet the expenses, as provided in this section.

SEC. 2. The Revised Statutes shall be published in one volume, large octavo, the text on new small pica type, the notes in minion, and printed on good quality of book paper, bound in good substantial law book style; and shall be equal in quality and of material and workmanship to a specimen volume which shall be selected by the Governor, and placed in the Executive Office as a standard, and by which the work shall be executed; and said volume of Statutes shall contain such matter besides the general and permanent laws of the State, and such marginal notes and index, as shall be prescribed by law. And it shall be the duty of the person having the contract for furnishing the said Statutes, to cause to be printed on the cover under the title, and on the back of each volume, the words State Property.

SEC. 3. The copy-right of the Revised Statutes is hereby secured to such person or persons as shall become the contractor or contractors to furnish the same, Provided, such person or persons shall, within twenty days after he or they shall be notified of the acceptance of his or their proposition for furnishing said Statutes, execute to the Governor of this State a bond, in the penal sum of twenty thousand dollars with two or more sureties, each of whom shall be a resident of this State, and shall each justify in the amount of the bond to be given, to be approved by the Governor, conditioned for the faithful performance of the work, in accordance with the standard on deposit in the Executive Office, and for the delivery of the said volumes, as hereinafter provided. Provided further, that the retail price shall not exceed four dollars per volume. Provided further, that such copy-right shall only hold good as against individuals.

SEC. 4. The Governor, Attorney General and State Treasurer are hereby required, immediately after the passage of this act, to advertise, in at least six newspapers in this State, giving not less than ten days notice, for sealed proposals for delivering to the Superintendent of Public Property, ten thousand copies of the said Revised Statutes in style as provided for in the second section of this act; and at the time fixed, the Governor, Attorney General and State Treasurer, shall proceed to open such proposals, and award the work to the person or persons whose proposition shall be by them considered the lowest and best; and the Governor shall enter into a contract with such person or persons for performing the work in accordance with the terms proposed, and in accordance with this act. Provided, that the preference shall be given to a bid made by a person or persons proposing to do the work in this State, the terms and conditions being equal.

SEC. 5. The said revised statutes shall be delivered at the seat of government of this State, within four months after the contract is entered into, and proposals for furnishing such statutes, shall guarantee the time within which it shall be completed, and the Governor, the Attorney General and State Treasurer, shall consider shortest time, as well as the lowest price in awarding the contract; and the Governor of this State is hereby authorized to receive and accept said statutes so delivered, and to deliver to said contractor a receipt for the same, and to cancel his bond.

SEC. 6. Upon the completion and delivery of the entire ten thousand copies as before provided, upon the presentation of the receipt of the Superintendent of Public Property, that they are so delivered and accepted by the Governor, Attorney General and State Treasurer, shall audit the entire account for furnishing the statutes in accordance with the contract price, and draw his warrant upon the State Treasurer therefor.

SEC. 7. The Secretary of State is hereby authorized and directed, to furnish to the contractor for furnishing and publishing the statutes, the copy for the same, as rapidly as it can be prepared from day to day, as the same is deposited in his office.

SEC. 8. The Constitution of the United States, and of the State of Wisconsin, the Declaration of Independence, and such United States Laws and Ordinances as are in the present Statutes, shall be published with the Revised Statutes.

SEC. 9. There is hereby appropriated, out of any money in the State Treasury not otherwise appropriated, a sum sufficient to pay all warrants drawn in accordance with the provisions of the preceding sections of this act.

SEC. 10. The bid hereinbefore mentioned, shall be so much per volume, of one thousand pages, and so much for each additional hundred pages.

WEDNESDAY MORNING, MAY 26.

Correspondence of the Sentinel.

Milwaukee to Waukesha, &c.

For the first 17 or 18 of the Milwaukee & Mississippi Railroad, there is not much to notice, except it be the thrift and energy so plainly apparent on every hand. The settlements, made in early days, were by men, who in an eminent degree possessed all those singular attributes that have, more or less, characterized the "early settlers of those "Wisconsin Wilds." They wanted to make more improvements, and to get up better buildings &c., than those their limited means would permit of, in their first 'squattings.' Substantial frame, and frequently brick houses are sprinkled along the edges, but a short distance on either side of the Railroad track; around each building or homestead, a fine young, and in many instances bearing orchard, is the artificial or planted growth of trees which adorns the outer parts of the dwelling houses. The cattle had deserted the barn yards and were feeding on the marshes, or browsing in the woods. Nature had got on her green vesture; the buds on the various trees, were expanding, the cowslips reared their bright yellow cups or leaves in and along the edges of numerous crooked creeks; the "popples" were looking proud in their new born leaves; groves of the wild plum trees were here and there seen with their white heads of blossoms, and the willows or the wild cherry trees with another and a softer shade of colors, peeped out occasionally, to enliven the timbered scene of the long stretch of woods that we hardly have parted with, when the "openings" are entered, and we are nearing what was once "Prairieville," now Waukesha—the former, by far, in my estimation, the prettiest name.

The peak of the spire, which is a cross, of St. Matthias Church, is about, if not the first evidence of a village, that appears to the view of the approaching traveller. At the time this Church was consecrated, a full notice of it was given in the *Sentinel*; it is built of the celebrated Waukesha stone, a building material that is not, so far as I am competent to judge, equalled in Wisconsin; the tower of this Church stands on a separate foundation from the main part of the building, because it is said, when the Church was built, it was not *stout* enough to bear or hold up the tower and body of the building together. Of this building material, I shall speak further. As we near Waukesha and for a few miles before reaching it, the land suddenly takes on an agricultural face; fields that show more than ordinary amount of tillage, for the furrows look straighter, and the land looks better harrowed, and the grain more evenly sowed, with altogether a healthier tone in the looks of things, is a characteristic of the land east of Waukesha, on the line of the Railroad, that all who have travelled this way, have doubtless noticed.

The *Spring* has fairly commenced; pasturage has been greatly improved within the past few days. The recent warm and genial showers of rain, have invigorated the roots of the grass, and the young blades have reared their heads and are now tossing them with a foppish air, as the pleasant breeze undulates the meadows and marshes.

The "openings" on the edge of the timber, seem better supplied with the feathered songsters; the black birds, thrushes and yellow birds, are alive and kicking; the woods are lively with the songs of the small birds, that not long since arrived from somewhere, while a somewhat fragrant smell, that finds its way occasionally, even into the swift running car, tells us that we are in the country—that part that God made.

Waukesha, as every body in Wisconsin knows, that knows anything, is not only a pretty place, but something more than that. It is one of the finest, best and healthiest sites for a growing and prosperous city—it is at present but a village—in the State of Wisconsin. Damming the Fox River, has made an excellent and an inexhaustable water power. The land around the town is all under a high state of cultivation, while the outskirts of the village are dotted with dwellings, with well laid out gardens and outgrounds, set out with well selected shrubbery, showing that wealth, taste and good judgment have been exercised in no common manner.

I have often heard it said that Waukesha would yet be the place selected by many of the Milwaukeeans, as their country place of residence, and I am inclined to the opinion, that if the beauties of the country surrounding it were known, and the low price at which building sites could be obtained, many of those who desire to escape from the lake winds and enjoy the invigorating influences of the pure and rustic air around Waukesha, would soon visit this place, and become purchasers of places for residences—the facilities for travel, on the Mil. & Miss. Rail Road at present, are so great, that a resident in Waukesha could reach Milwaukee at 8 A. M., stay throughout the day, and be home in Waukesha at 7 P. M.

Close to the village, and I do not know but in its limits, are stone quarries, from which an inexhaustible supply of limestone, about 10 inches to a foot in thickness is obtained, which for a building material is unequalled in Wisconsin, and I do not except even the "cream colored brick." This stone needs no dressing, and when laid into walls, in courses, and pointed up well, makes one of the handsomest and most durable buildings that can be erected. Another advantage it possesses is this, it does not change color. There are buildings here that have been built twelve, fourteen, and I think I remember one of them fifteen years ago, the color of the stone of which has not changed one particle, the stone fronts look as bright as ever, clean and handsome, and have a look of, and in reality a durability, that no brick in the world possesses.

No person given to observation, but must have noticed that the stone of the Custom House on Wisconsin street, Milwaukee, has changed color wonderfully since its erection; so with that in Mr. Ludington's building on East Water street, occupied by Sexton & Bro's, while a glance at Nazro's will satisfy any one that the stone of Madison cannot stand *hardware* and a constant exposure to the elements, without changing and soon losing all its natural color. The short distance of the quarries from the main part of the village, and the ease with which it is quarried, enables those owning the quarries, to supply this stone for building purposes at unusually low rates, making the cost of a dwelling but a trifle compared with other materials in building. In the respect of building materials, Waukesha has a great advantage over any other village or city in this State that I know anything of.

Business, they tell me, has sprung up a little here within the past few days. I think the dullness of trade may be easily accounted for, as the farmers are all busy planting their corn, &c. I shall take a good look around this pretty and durable looking village, that in spite of all the dull times, and the fact of its being the home of two of the Governors of Wisconsin, smiles healthily upon that serpentine stream, the Fox river, that seems trying to crook itself more often than the rail road that skirts its edge, but gives up at last. The *Sentinel* has a large circulation here and stands A No. 1 in the estimation of all. The two papers published here have also a good circulation and are well patronized; the people seem to have acted upon the advice always given in the *Sentinel* to everybody, to patronize their local papers first.

The La Crosse R. R. Direction.

Fox Lake, May 24th, 1858.

Mr. Editor:—It is contrary to my usual habits to allow myself to be betrayed into a newspaper discussion with any one. But in your issue of Friday last I was made the subject of an entirely unprovoked attack to which I am induced to reply, not by any apprehension of its effect upon myself individually, but by the consideration that others are implicated and will look to me to explain their course. You will of course understand that I allude to the statements of Stoddard Judd in regard to a memorial, address, petition, or whatever you may style it, to the Directors of the La Crosse R. R. Company in relation to the election which is to take place on the 26th inst.

Justice seems to demand, that I should place myself right with the gentlemen whose names were affixed to that paper, and I shall do so by a simple statement of facts. I hardly need refer to the history of the outrages and successive frauds which have been perpetrated on the country Stockholders. Many of them have been fully developed by the recent report of the Investigating Committee, and many others not less villainous in character, though less in magnitude, are familiar to some of your readers. But the nefarious scheme which rendered nugatory all our attempts to correct evils which we saw springing up, a scheme by the way, proposed and inaugurated by Stoddard Judd himself, was the issue of bogus stock certificates, which prevented those, who had in good faith paid for their shares, from deciding who should manage the affairs of the Company.

This latter plan has been so long and so successfully in operation that it is not strange that many of us have despaired of ever being able to regenerate the Company, and have been ready to give our proxies to any one who asked for them. No one is more willing than myself to concede to Stoddard Judd the qualities of courtesy and good fellowship which he so eminently possesses, and I am by no means surprised to learn that, rather that disoblige by a refusal a good neighbor, many of the people of Fox Lake have given him the power to try to vote himself into a position for which they know him to be unworthy, but which they were satisfied neither himself, nor any other country stockholder could attain. But when, by the action of the Legislature, this bogus stock scheme of his was broken up, the shareholders around Fox Lake began to think that, possibly, our voice, so long unjustly silenced, might be heard, and a few of them prepared the document, the publication of which has so excited the nerves of Dr. Judd, and in it my name was inserted for Director, without my knowledge or consent.

I have never desired to be a member of the La Crosse Board and certainly I do not desire it now. But by the personal attack of which I have been made the subject, I am compelled to say that I, with many others, have been unwilling to see a man returned to a seat in that Board who, we are forced to believe, basely betrayed our interests when he was before placed in it to represent them. Until the records of his bogus stock transactions, of his school land speculations, of his interest in the Bradley & Whitmore contract, and of the peculiar financiering by which the Road was sent off two miles from its original line, leaving our village entirely in the lurch, can be effaced or explained, and why he surrendered our Bond, compelling the Directors to contract the Road on the Fox Lake line; Dr. Judd is not the man to receive our proxies for an election in which we think there is any prospect of his proving successful.

As proof of the fact that the real sentiment of the community is adverse to his claims, I need only add that many of those whom he enumerated as his supporters have come to me to give me their proxies since the 7th inst., stating that before that date they had given them to the Doctor, but supposed that they had been rendered useless by the special act of the Legislature.

Whether he has hit on the expedient of *changing the date* I do not know, although this would appear to be indicated by the fact, that one gentleman whose proxy he claims, has been absent from the country since before that time.

In conclusion, I repeat that I am not myself desirous of an election, and that I have consented to become a candidate only at the urgent request of others—I now take a greater pleasure than I ever did in seeing my name offered, in withdrawing it in favor of Mr. Wm. E. Smith, a gentleman in whom all have full confidence, and who will possess additional advantages for the place, in consequence of being already a member of the State Senate.

Respectfully &c.

B. Ferguson.

Death by Drowning of Col. Michael Myers.

A melancholy case of drowning occurred in the fourth Lake on last Saturday morning. Col. Michael Myers, the father-in-law of Frank Frary, Esq., of this city, in the course of the morning went and hired a skiff, and rowed out on the fourth lake. When the skiff was about two miles from the shore, the breeze suddenly freshened, and some boys who were looking at the skiff, observed its occupant waving his arms, and finally falling overboard. Capt. Brown at once put out in his boat, and when he arrived at the tenantless skiff, he found that it contained a hat, coat and pair of boots. Those were subsequently identified by Mr. Frary as part of the attire worn by his father-in-law. A silver snuff-box and some other articles were found in the pockets of the coat; which were recognized by Mr. Frary.

Col. Myers lived with Mr. Frary, and for a number of years had been suffering severely, from an incurable dyspepsia. He had held the rank of Col. in the U. S. Army, and more recently held the office of Sheriff of Racine County, at the time that the present Kenosha County was included within its limits.

He has been depressed in his mind for some time past. He was about sixty-five years of age, and an aged widow and several children are left to mourn his loss.—*Madison Patriot.*

Destruction of Crops in Louisiana.—A correspondent of the New York Evangelist, writing from Lake Providence, Louisiana, under date of May 8th, says—

"I arrived here this day week, and found this county all or nearly all overflowed with water, and the planters think that if the water runs off in two weeks they will be able to plant again and get a good crop; but the prospect now is that it will not go off so soon; if not, the loss will be very great to this part of the country.—At least three-fourths of the crops of this county (Carroll), considered the best in the State, will be destroyed."

Death of Mr. Frink.—John Frink, so long and widely known throughout the West, died yesterday afternoon at his temporary residence in the West Division, where he has lingered under the effects of a paralytic stroke since Monday evening last.

Mr. Frink was in many respects a remarkable man. An iron will and indomitable energy, connected with a strong intellect, enabled him to overcome obstacles and bear down opposition formidable to ordinary men.

For nearly a quarter of a century Mr. Frink resided in this city, and was connected with the mail service of the West, his contracts embracing Indiana, Illinois, Missouri, Wisconsin, Michigan, &c.

A few years since he removed from this city to Peoria, where his family have since resided. He was nearly 64 years of age, and leaves a wife and five children.—*Chicago Journal*, 24*th.*

Indian Massacre.—Eleven Chippewas Butchered by Sioux.—On the 27th ultimo, a party of Sioux atrociously butchered eleven Chippewas on an island in the Mississippi, opposite Crow Wing. The Chippewas had come in from their sugar camp, and were warned off by the Sioux. Notwithstanding this, the Chippewas remained on the island, and, on the night of the 27th ult., they were attacked by the Sioux, who fired on them, killing eleven of their number. A Mr. White heard the report of their guns, and, looking from his window, witnessed the butchery.—The heads of the murdered Chippewas were cut off, their entrails torn out, and their bodies otherwise mutilated.

THE ADMISSION OF OREGON.

Remarks of Hon. William H. Seward,

In the U. S. Senate, May 18th, 1858, on the bill for the admission of Oregon into the Union.

Mr. Seward. Mr. President, a portion of the Senate is opposed to the admission of States which tolerate slavery. That portion of the Senate is gratified by the bill which is before us now for the admission of Oregon; for it is founded on a constitution which excludes slavery in the State of Oregon. I believe all the other members of the Senate have avowed the principle that slavery or freedom in a State is to them immaterial, they proceeding upon the principle of the right of a State to choose whether it will exclude slavery or not. Under these circumstances, I had hoped that we had reached a proposition for the admission of a State into the Union in which the slavery question would not be discussed here. I see no necessity for going into that discussion now. It is not at all necessary to be taken into consideration in the vote which I am to give on this question.

Sir, I know how important it is, where it is practicable in the affairs of government, as well as in other concerns of human life, to adopt general rules and to have systematized modes and methods for the transaction of affairs. The constitution of the United States does, in a great many cases, adopt that principle of generalization; that is of fixing certain rules and measurements, all of which must be conformed to before a great public action can be achieved. But it has always struck me that it was a signal mark of wisdom in the framers of the Constitution that, in regard to the admission of new States into the Union, new members of the Confederacy, the Constitution avoided altogether anything like form, everything like measurement, everything like particularity, and submitted the transaction always to the uncircumscribed discretion of the Congress of the United States. Congress may admit new States; and inasmuch as they may admit, they may reject new States. They may admit new States anywhere; they may reject them everywhere. They may admit them with one hundred thousand people; they may reject them with a million of people. Congress may admit a new State which has been organized after a compliance on the part of its people with certain prescribed forms set for them by the Congress of the United States, or on the compliance with certain customs which other Territories seeking admission into the Union may have adopted. So, on the other hand; Congress may admit a new State, as it has, on more than one occasion, admitted a new State which had complied with no forms, which had proceeded at once to the matter of organizing itself without any preliminary application to Congress, or any preliminary investigation of it by the people themselves.

It is precisely because I think it is important that this should be kept up, that the question should always come before Congress in the case of every new State disembarrassed by forms, disembarrassed by measurements, disembarrassed by precedents, that I rise to protest against my vote here in favor of the admission of the State of Oregon, under the circumstances in which she comes here, being given upon the condition, or the pledge, or the assurance, that under other circumstances, and at another time, and in regard to other States, I shall vote because of an analogy established between that State and the present one. I can conceive, as I said upon this question a few days ago, of a State with a million of people that I would not consent to admit into the Union; and I can conceive of a State which I would admit with a population of forty thousand, or fifty thousand, or sixty thousand.

In coming to this conclusion, I am determined by the fact, that, geographically and politically, the region of country which is occupied by the present Territory of Oregon is indispensable to the completion and rounding off of the Republic. Every man sees it, and every man knows it.—There is some day to be a State of Oregon.—There is no member of the Senate or of the House of Representatives, and, probably, no man in the United States who would be willing to see it lopped off, fall into the Pacific or into the possession of Russia or under the control of any other power; but every man, woman, and child knows that it is just as essential to the completion of this Republic as is the State of New York, or as is the State of Louisiana, on the Mississippi. It cost us too much to get it; we have struggled and fought too hard for it, we have nursed and cherished it too long, not to know and feel that it is an essential part of the Confederacy.

Well, then, she is to be admitted at some time, and, inasmuch as she is to be admitted at all events, and is to be admitted at some time, it is only a question of time whether you will admit her to day, or admit her six months hence, or admit her a year or seven years hence. What objection is there to her being admitted now? You say she has not one hundred thousand people. What of that? She will have one hundred thousand people in a very short time. The motion to postpone until the first Monday in December next, if it presents sincerely the views which it expresses, admits that on the first Monday in December she will have population enough, or at least it can be ascertained. Now, what earthly difference can it make to this Republic collectively, to these States collectively, or any one State in the Union, whether Oregon is admitted now or admitted next December, except the inconvenience of postponing and delaying that question and embarrassing it by the occurrence of new and disturbing circumstances? The State of Oregon is, of her own free consent, here, ready to be admitted. She is here with a constitution complete and a State government organized and ready to go into operation.

That state of things may continue until next December, or some circumstance may intervene to embarrass and disturb it. Next December will be the beginning of a short session of Congress, and debates upon this or other subjects may prevent the admission of Oregon for another year. Then, in that case, will be the embarrassing question, whether this constitution remains; whether the convention that organized it expressed the will of the people of Oregon, or whether a new proceeding must be instituted for that purpose; and when it is all done, I think there is nobody who doubts that the people of Oregon are, to-day, ready, desirous, willing to come in. They have made a constitution which is acceptable to themselves; and a constitution which, however it may be criticised here, after all complies substantially with every requirement which the Congress of the United States, or any considerable portion of the House of Congress has ever insisted upon in regard to any State.

It seems to me, therefore, to be trifling with the State of Oregon, trifling with the people of that community, and to be unnecessary and calculated to produce an unfavorable impression on the public mind in regard to the consistency of the policy which we pursue in admitting States into the Union, to delay or deny this application. For one, sir, I think that the sooner a Territory emerges from its provincial condition the better; the sooner the people are left to manage their own affairs, and are admitted to participation in the responsibilities, the stronger and the more vigorous the States which those people form will be. I trust, therefore, that the question will be taken, and that the State will be admitted without delay.

Every company or corporation organized under the laws of the State of Wisconsin or of sister States or foreign governments, and transacting the business of life, fire and marine insurance companies in this State, shall within three months after the passage of this act, and also on or before the first day of February in each and every year thereafter, furnish to the Governor of this State, and shall also publish in the State paper daily for two weeks, a statement verified by the oath of their president or principal officer and majority of their directors or trustees, showing the amount of their paid up capital and accumulations of which they are possessed, and specifying the particular securities in which they are invested, with the amount of each; the number of policies and the amount of outstanding risks thereon, the several amounts received in premiums and from other sources for the current year; the amount of losses and the expenses severally for the same period; the amount of claims unpaid; the amount offered for re-insurance; the amount of premium notes, if any, held on account of policies upon which the risk has terminated; the whole number of policies issued or continued through their offices or agencies; the amount of risk thereon, and the gross amount of premiums received therefor, in the year preceding their report; the number and amount of losses paid through their agencies and by their officers during the same period.

Sec. 2. It shall be lawful for the Governor whenever he shall deem it expedient so to do, to appoint one or more competent persons, not officers of any life, fire or marine insurance company doing business in this State, to examine into the affairs of any life, fire or marine insurance company incorporated in this State or doing business by its agents in this State; and it shall be the duty of the officers or agents of any company doing business in this State, to cause their books to be opened for the inspection of the person or persons so appointed, and otherwise to facilitate such examination so far as it may be in their power to do, and for that purpose the Governor or the person or persons so appointed by him shall have power to examine under oath the officers and agents of any company relative to the business of said company, and whenever the Governor shall deem it for the interest of the public so to do, he shall publish the result of such investigation in one or more papers in this State.

Sec. 3. Whenever it shall appear to the Governor from examination made under his direction, that the assets are not sufficient to insure the outstanding risks of any company incorporated by or under the laws of this State, he shall communicate the fact to the Attorney General, whose duty it shall then become to apply to the Circuit Court for an order requiring them to show cause why the business of such company should not be closed; and the court shall thereupon proceed to hear the allegations and proofs of the respective parties, and in case it shall appear to the satisfaction of the said court that the assets and funds of the said company are not sufficient as aforesaid, the said court shall decree a dissolution of said company and a distribution of its effects. The Circuit Court shall have power to refer the application of the Attorney General to a referee to inquire and report upon the facts stated therein.

Sec. 4. It shall not be lawful for any person to act within this State, as agent or otherwise, in procuring applications for insurance in either life, fire or marine insurance or in any manner to aid in transacting the insurance business of any company or association not incorporated by or under the laws of this State, until he has procured from the Governor a certificate that the company or association for which he acts has complied with the provisions of this act, and for every certificate so obtained the sum of three dollars shall be paid the Governor.

Sec. 5. Whenever it shall appear to the Governor from the report of the person or persons appointed by him, that the affairs of any foreign company, as aforesaid, are in an unsound condition, he shall revoke all such certificates in behalf of such company, and shall cause a notification thereof to be published in the State paper for four weeks, and the agent of such company is after such notice required to discontinue the issuing of policies.

Sec. 6. Every violation of this act shall subject the party violating to a penalty of five hundred dollars for each violation, which shall be sued for and recovered in the name of the State by the District Attorney of the county in which the company or agent so violating shall be situated, and in the case of non-payment of such penalty the party so offending shall be liable to imprisonment for the period not exceeding six months, at the discretion of any court having cognizance thereof.

Sec. 7. This act is hereby declared a public act, and shall be printed by State Printer immediately, and when so printed the same shall take effect and be in full force.

DR. J. H. ROBINSON
AMONG THE TRAPPERS.
ANOTHER NEW ATTRACTION
IN
THE NEW YORK WEEKLY
Which is universally acknowledged to be
THE BEST STORY PAPER
NOW PUBLISHED IN ANY PART of the WORLD!

NICK WHIFFLES;
OR,
The Trapper Guide.
A TALE OF THE NORTH-WEST.
BY DOCTOR J. H. ROBINSON!

AUTHOR of "Buck Bison," "Pioneers of Kentucky," "Marion's Brigade," "Half-Witted Nat," etc. etc. His last and best story. For sale by all news dealers in the United States and British Provinces. This is a story descriptive of Wild and Startling Adventure, and of the primitive modes of life, among the Indians and Trappers of the Great Northwestern Territory. This grand and extensive portion of the American Continent has been hitherto almost as a "sealed book" to the civilized world. In these regions a territory nearly as large as Europe has long been locked in the monopoly of the great Hudson's Bay Company, and its rival, the Northwestern Co. Private enterprise has not penetrated its solitudes, and of those whose duties have called them there, and who have participated in the treasures of this unknown land, none have hitherto been willing to expose its mysteries, or have possessed the power of portraying the perilous and strange vicissitudes through which they have passed. Here we find classes of men, distinct, indigenous to the soil, or moulded by its peculiarities; perfectly original in character, utterly unlike in manner and habits to any similar order in other lands. The Indian, in all his natural wildness; the half-breed, a strange mixture of daring, simplicity and cunning; the Trapper, who spurns the restraints of civilization, and recognizes no law, but the fierce impulses of his own will; the European Exile or Outcast; the Outlaw of Canada or the United States, who seek in the trackless wilderness a refuge from the outraged laws of civilized life.

Nor is this rude society denied the genial influences and humanizing effects of woman's presence. Impelled by affection, hundreds of devoted women have accompanied these adventurous outcasts to this wild retreat; while the population, the offsprings of mixed races, contains thousands of half-breed females, in whom the passions, the graces, and the virtues of the softer sex, are blended with the artlessness of nature, and the wild freedom of a life that knows no conventionalities.

In these reckless men the great rival Companies find willing agents and unscrupulous tools; once engaged in their service, but few ever return, or care to return to society. Among these people are enacted deeds of rude chivalry, as brilliant and daring as any recorded of the chivalric ages. And among them also are committed tragedies, and crimes of wild passion, that can find no parallel in history, or scarcely in fiction. Living absolutely without law, and without protection, every man is, perforce, a law unto himself, and the rifle and the tomahawk are the only arbiters.

Here is a glorious field for a novelist whose experience and talent fit him for the task of depicting its events. Such a man is the author of "NICK WHIFFLES," and in this story we venture to say that he has surpassed every former effort. For fidelity to nature, for graphic and dramatic force of style, and for keen delineation of character, there are few stories in the language that can compare with "NICK WHIFFLES." The author brings before the reader, in life-like action, the hardy Adventurers and the simple Natives of this magnificent region. The crime, the wrongs, the misfortunes and the unsophisticated virtues of life he depicts, alternately arouse our indignation and awaken our sympathy. At one time we are rapt in admiration of the reckless courage and romantic daring so vividly painted by this skillful writer, at another time we are melted to tears by the exquisite pathos with which some of the noblest traits of human nature are brought before us, and again we are convulsed with laughter by humorous descriptions of eccentric and original characters—the *unique* offspring of a free, lawless and untrammelled mode of existence; a phase of human nature hitherto unknown for want of a historian.

Those who have read the previous productions from the pen of Dr. Robinson, do not require to be told that there is no man living who can compete with him in a story of this character. He stands unrivalled in this class of literature. As one of the leading contributors for the *Flag of our Union*, and other leading publications of the day, for a number of years, he has acquired a popularity that places him in the front rank of American story-writers.

☞ Those who desire to secure the story by Dr. ROBINSON, complete, should send in their orders at once, to enable us to make arrangements to supply them. Wherever there is a News-Agent, order through him. We only desire to send the WEEKLY by mail to out-of-the-way places, where there is no News Dealer. When sent by mail, the terms are $2 a year, or two copies for $3. Six month subscriptions, $1. All orders by mail, must be addressed to

City Auction Room.

I WOULD again announce to the citizens of Milwaukee, and the Ladies in particular, that I have some Eight Hundred Dollars worth of Dry Goods on hand, calculated for the spring and summer wear, which I will sell at private sale. It was my intention to have sold the goods all off at auction, and would prefer doing so, but it will prevent the ladies from purchasing many articles, as they do not attend auctions, and in fact they should not, except at private houses, where there may be sales of furniture. I therefore will give to all, for thirty days, an opportunity to come and get any article I may have in Dry Goods, at a discount of thirty per cent. less than any one else will sell. I do not wish to injure trade, nor do I wish to cut the price of goods down; I have too much sympathy for merchants, that I would scorn to do anything that would injure them. I have been a merchant once myself, and all I made while being one you might have put in your Eye. I am an auctioneer, my business is to sell all goods that are sent to me, for all I can get for them. I try always to do what is right. I may in some instances err, through the hurry of business, but my intention is to do right. In every instance I am always ready to sell any stock of Dry Goods, Hardware, or any goods of any kind, advance money on it, or I will purchase stocks of goods for cash, or I will exchange property for goods. Any one giving up housekeeping I will sell their furniture for all it will bring. Now I have said all that is necessary. Call at my Auction Room and purchase any goods I may have that you may want. I have about Five Hundred Bonnets left of the Antique Style, which I will sell at one dime each. Let every lady that has not a Bonnet on her head call and purchase one, and those who are not able to purchase one, I will make them a present of one.

Private and Confidential Medical Advice.

AT THE MILWAUKEE Venerian Hospital, established for the cure of Syphilis, Semina Weakness, and the infirmities of youth and maturity, by Dr. Barnes.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 19 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.

THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.

The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.

The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for

What decent Southern People think of Northern Pro-Slavery Men.

The New Orleans Commercial *Bulletin*, commenting on the story of the Yankee parentage of Senator Hammond, who call Northern laborers "white slaves," observes:

We know nothing as to the truth of the statement in regard to Senator Hammond's Massachusetts extraction, but it reminds us of the statement of a Southern contemporary that pending the discussion upon the compromise measure in 1850, the greatest brawlers in the South against them were either Irishmen, Massachusetts or Ohio Yankees! And this also called to mind what a distinguished gentleman of Arkansas once told us, that some of the worst drunkards and gamblers, and some of the most ultra nullifiers he had ever known in the South, were natives of the Northern States.

We think the truth of this observation will be confirmed by many besides the Arkansas man referred to. In fact, it has become a common remark that Irishmen and Yankees, when they take to agitation in the South, are more intensely *patriotic* (?) and boisterous than anybody else, especially if they own no slaves. They fairly out-Herod Herod himself. It is a rather curious and somewhat suggestive circumstance. They seem to be constantly laboring under the idea that their fidelity to the South is suspected, and hence they appear to think it necessary to exhibit an extra amount of spiritual devotion to it. Now, without intending to be at all offensive, we must be permitted to remark that we think these people egregiously err when they suppose that such a course will in the least enhance their reputation in any respect. It must rather injure it.

A few years ago a very popular and able gentleman was nominated for Governor by the Democratic party of Georgia. He happened to be a native of New Hampshire. That was in itself of no consequence one way or the other; but in the course of the canvass he took special pains to "pitch into" the North, and men of northern extraction, with the greatest gusto. What his motive was for this rather amusing course, rendered peculiar by the circumstances of the case, we shall not undertake to say; but he was defeated, and perhaps this contributed to it. At any rate he was in bad taste, and must have been foolish, as it was wholly unnecessary.

FRIENDS OF HUMANITY.—To you (always disposed to aid the suffering,) it may appear incredible, after in vain trying all the "wonderful" medicines of the day, that one application externally, and a few drops taken internally, of my (genuine) Electric Oil, will so very suddenly relieve the sufferer from the most violent pains; yet, it is a fact, as testified, by good men and by good women, whose names are at my office. Not any have used it without deriving some special benefit within an hour, and many are they who have been perfectly cured of Rheumatism, Neuralgia, Spinal and Bronchial Complaints, Croup, Tic Doloreux, Felons, Cramps, Piles, Sprains and Bruises, Cuts and Wounds, Swelled Glands and Stiff Joints, Scrofula and Erysipelas, Sore Nipples and Swelled Breasts, Salt Rheum and Cankers in the Mouth or Stomach, Eruptions and all kinds of Sores, Headache and Toothache in five to ten minutes; also, Chilblains and Sore or Tender Feet. It will be seen that I do not profess to cure everything, but only a certain class of complaints; all of which are curable on simple electric principles through the affinities of my Electric Oil, and the Nervovital fluid of the human body.

The modus operandi of progressing and ever changeable Rheumatic pains, is imperfectly understood by mankind; whether its location is the membrane or covering of the nerves, inflamed by derangement, (like the coating of an inflamed stomach,) or some disturbance of the electric fluid itself; certain it is that my Electric Oil is readily absorbed into, if it does not actually supply a needed deficiency in, and equalize the circulation of that great principle of living organization.

Let the skeptical and the humane look into this matter—for if these things are so, all are all e interested. I will take any case from the hospitals to test it for all.—My Electric Oil is pleasant and innocent; no danger of cold or reaction, as all will bear me witness. Come and see for yourself—near Chestnut street, 89, South Eighth street; 40cts. and $1 per bottle.

☞ Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, grey hair to its original color and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured, young gentlemen and by what process it has never been determined, until lately when it was attributed to the use of this invaluable Hair Restorative.—Lasalle Journal. For proof of which he refers to a long and respectable list of certificates, a few of which are given below, and plenty of others to be seen at the office of the subscriber. READ! READ!

Some Testimony not bought, and no names inserted without the knowledge and cheerful consent of the parties.

Newburgh, April 19th, 1858.

St. John D. Sanborn, Esq.,

Dear Sir:—In reply to your request, asking my opinion with regard to the Composition Roofing patented by C. R. Miles, I have to state that I have examined the matter carefully, having watched its application in various places and in some very difficult ones, which it has been impossible to stop the leakage of with any other known compound. I have no hesitation in pronouncing, so far as its Water Proof qualities are concerned, essentially the thing, and as to its Fire Proof qualities, having examined the roofs of Homer Ramsdell, Esq., I find the roof boards completely charred through, and at the same time the Composition remains entirely untouched by the fire, although constantly covered with falling brands and cinders. I therefore consider it essentially both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with West's patent,) I have no hesitation in pronouncing it the very best thing extant, both as a Fire and Water Proof Composition for Roofing purposes. H. F. ADAMS.

Having felt an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the winters of this climate, we were induced in September last to apply, as an experiment, some of C. R. Miles' Mastic Roofing on a Tin roof adjoining our office, (said roof being much exposed to the action of the weather, and also the rain and snow from another roof,) we find at this date said roofing in the most perfect order, and believe the great question of how does it stand the "winter" is settled, and that C. R. Miles' Roofing must prevail over all other Mastic Roofing in use. SCHUYLER & PARKER,

MEDICAL.

ONE DOLLAR
WILL BUY

SANFORD'S LIVER INVIGORATOR.

ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver is cured when the Liver is excited to action.

JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.

For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a *family medicine* generally, all who use it speak in the highest terms.

DR. SANFORD'S INVIGORATOR came to us recommended to us as a cure for Liver Complaints, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Fact.*

We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

AYER'S
CHERRY PECTORAL!

FOR THE RAPID CURE OF
Coughs, Colds and Hoarseness.

BRIMFIELD, Mass., Dec. 20th, 1855.

Dr. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your *Pectoral* myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Miss., Feb. 7, 1856.

BROTHER AYER:—I will cheerfully certify your *Pectoral* is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR:—Your *Cherry Pectoral* is performing marvelous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.
HENRY L. PARKS, Merchant.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to these the *Cherry Pectoral* affords relief and comfort.

Consumptives do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

TO THE AFFLICTED.

DR. TILTON, having returned from his Southern tour, has taken rooms at the Massasoit House, Chicago, where he will now remain permanently.—Those who suffer from Consumption, Indigestion, Nervous Debility or Weakness, will do well to call on him and have his advice. His

GREAT EAST INDIA REMEDIES,

Which he discovered in Calcutta after many years of research and labor, have become so thoroughly known and appreciated, than an attempt has been made by a few avaricious parties, with the expectations of gain, here and elsewhere, to counterfeit it; therefore, Dr. Tilton cautions the public not to buy this worthless drug as the genuine, no matter how represented, as no one but himself in the United States has possession of the original receipt. Dr. Tilton may be consulted at Room 8, Massasoit House, Chicago, where he last year succeeded in successfully curing hundreds of terrible cases of Consumption Nervous Debility and Indigestion, Asthmas, Bronchitis, Coughs and Colds. The Cannabis Indica and Lung Balsam, are the greatest blessings of the age. Give him a call, or send for a bottle of medicine which will cost you two dollars. Address,
DR. TILTON,

THE DAILY SENTINEL.

Direct Trade with Liverpool.

HAMILTON, May 17, 1858.

ARRIVED.—The barque *C. J. Kershaw*, Captain Moore, which left Chicago last season and returned to Montreal last fall, with a general cargo, too late to pass through the St. Lawrence Canals, arrived here on Saturday evening, and is now discharging at Thomas Routh & Co's wharf, that portion of her cargo to be landed here, and which is owned by H. Juson & Co., viz:—195 bars Argyle iron; 324 bdls oval iron; 1,458 nail sheets; 11,212 bars iron; 1,085 bdls iron; 20 boxes railroad springs and 14 locomotive axles. She has also on board about 250 tons for ports on Lake Erie and Michigan, showing our American friends the direct trade for their imports as well as their exports. This vessel on her arrival in Chicago will load again with wheat direct for Liverpool. She is a fine vessel and well calculated to cross the stormy Atlantic. She will leave here about the end of this week, and if we may judge by the short time she is with us, she will be visited by thousands of our admiring inhabitants. Would it be too much for our Royal Artillery to turn out and give a parting salute, being the first vessel having crossed the Atlantic that visited our "ambitious city."—*Hamilton Times.*

MEDICAL.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,
FROM
The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimples on the face.
Two or three bottles will clear the system of biles.
Two bottles are warranted to cure the worst canker in the mouth or stomach.
Three to five bottles are warranted to cure the worst kind of Erysipelas.
One to two bottles are warranted to cure all humor in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst kind of kind of ringworm.
Two or three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure salt-rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skilful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to you husband and household.

In the more advanced stages of

CANKER

extends to the stomach, causing

DYSPEPSIA,

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS,

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonous fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.
